

Boscobel

HOUSE AND GARDENS

SCOUT GOOD TURN PROJECT

Completed in 1808 for the States Dyckman family, Boscobel House is widely regarded as one of the finest examples of Federal architecture in the country. In addition to the House, this public property in Garrison NY features a 29 acre, one mile-long Woodland Trail.

In an effort to complete much needed trail work by June 1st Boscobel House and Gardens has reached out to the Westchester-Putnam Council Boy Scouts of America for help. Their Maintenance staff consists of only four paid workers and they need to complete 450 feet of Trail work.

The Woodland Trail looks out on to Constitution Marsh, the Hudson River, West Point, and has several other scenic views. The trail currently needs to have Check Dams, Steps and Banisters installed as well as leaves removed and Wood Chips put down.

As Scouts it is our job to do a Good Turn Daily. Please consider donating a few hours of your time individually, as a Troop, or even as an Eagle Scout service Project. To make arrangements to restore this beautiful Trail, please contact:
